If you need documentation/evidence of the unpermitted discharges, here are the inspection reports that provide flow and conductivity data for the discharges from the removed pond areas. In addition to the report for 1101401, I am also sending the reports for two other permits that were included in my complaint.

I don't know the level of communication between EPA and OSMRE. You indicated there were plans to send a follow up letter to DMLR next week. I would like OSMRE to have a copy of that letter to include in the complaint file. Could you email me a copy so it can be considered by them in their deliberations?

Thank you,
Jessica

Here is the DMR. I'll send the benthic monitoring reports in separate emails b/c of the large file sizes.
